Discipline

TRIFONOVA EKATERINA

FRONT-END DEVELOPER

I have been programming in Javascript for 2 years. In my projects, I use both vanilla JS and frameworks.
My experience in working both as part of a team and independently has allowed me to take on projects of varying complexity.
I actively keep up with the latest developments in frontend development and strive to improve my results and increase my skills.
I would be happy to be a part of a team of professionals who are passionate about what they do.

Tech Stack:

- **Client**: React.js, JSX, TypeScript, Javascript, SASS, HTML , ESlint, Webpack, Bootstrap, Material UI, Figma.
- **Server**: CommerceTools.
- **Management**: Discord, Trello, Scrum.
- **Test**: Jest, React testing library.
